

# Introduction

*(Trimax Manufacturing Facility, 50000 Sq.Feet Land, Covered Area 34830 Sq.Feet)*

Mr. Mohammad Shafi during 1918 started an enterprise "Garrison Surgical Works" (The Founder of Surginal Instruments Industry in the region). His son Mr. Mohammad Afzal worked hard for the expansion of the company and eventually elevated new establishment known as AFZAL SAEED MANUFACTURING CORP. in 1967.

AFZAL SAEED MFG. CORP has introduced TRIMAX brand for the manufacturing of High Quality Manicure & Pedicure Instruments by using the same standards and materials that used for Surgical & Dental instruments. Under the heading of "Tomorrow's Manicure Today". TRIMAX aims to link its traditional background with the idea of innovation. The result is state-of-the-art production techniques, unmistakable designs and a steady flow of new, leading-edge manicure and pedicure products. The spectrum ranges from high-grade instruments and wallets to nail and foot care products. Where attractive hands and feet are concerned, in most cases there is TRIMAX product close at hand.

For over years TRIMAX products have been known for their high quality standards and their individualist approach. Tried and tested TRIMAX quality impressive value for money is the principle behind comprehensive product range. In the year 1996 TRIMAX successfully passed the quality assurance certification procedure according to ISO 9001:2000 and CE Mark authorization.

TRIMAX under-go the required audits yearly to feel confident that we supply a consistent high quality to our customers.

Thank you for your continued interest in our Quality Instruments.

We look forward to serving you further.

TRIMAX

We manufacture quality instruments, distinguishing on workmanship, design, and function. Products made by Trimax have to recommend themselves by their ultimate quality. Our staff and their outstanding workmanship and product knowledge are the main capital of the company. To facilitate their work it is to be supported by a most sophisticated technical equipment. Personal well being on the job guarantees a perfect workmanship which results onto a high quality level. It, therefore, tops the priority list of the company management. Environment protection precedences short-term cost management. One of the key success factors of Trimax's product range is the ability to combine high quality craftsman-ship with innovative technology. Tailor-made high-tech processes are used side-by-side with manual production processes.

### Double Blister

High frequency sealed double blister with card inside. Completely closed.

### Single Blister

High frequency sealed blister packing, back side open with card inside.

### Sliding Card Blister

Blister packing with sliding card insert.

### PVC Pouch

Hangable PVC pouch, available in various shapes and colours with or without card.

### PVC Packing

Hangable PVC packing with insert card.

### Bulk Packing

Instruments are packed in high density poly bags for bulk packing.

## Choice of Finishes

The use of high grade stainless steel has the dual benefits of reducing wear to a minimum and guaranteeing long-lasting sharpness. Non-rusting Inox instruments are free of nickel, anti-allergenic and can be sterilised. This interplay and the intensive cooperation with leading dermatologists guarantees uniform, high quality levels for these kind-to-the-skin instruments and care products.

All of our products are made of high grade steel.  
**Grade 410:** the basic martensitic stainless steel; like most non-stainless steels it can be hardened by a "quench-and-temper" heat treatment. It contains a minimum of 11.5 per cent chromium.  
**Grade 420:** a higher carbon version of 410; like most non-stainless steels it can be hardened by heat treatment. It contains a minimum of 12 per cent chromium, just sufficient to give corrosion resistance properties.

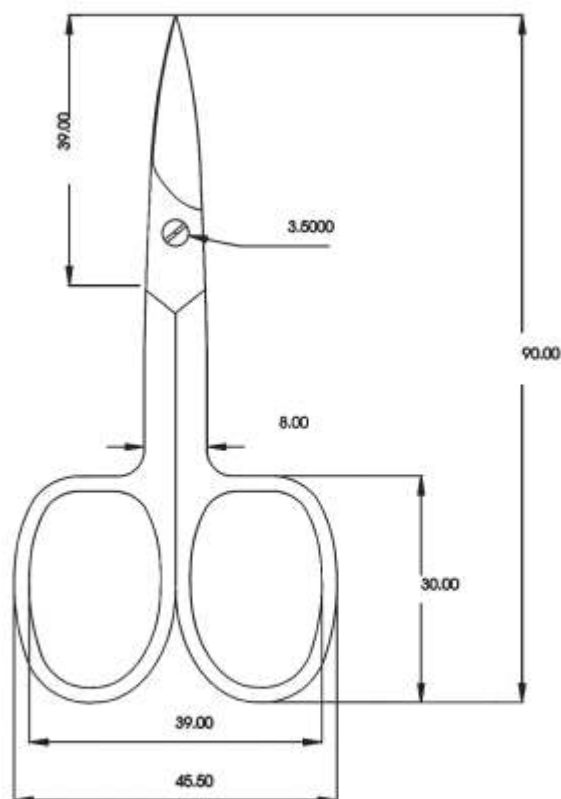

### Polish / Shine Finish

These instruments feature high grade and highly attractive shining surface finish.

### Satin / Matt Finish

These instruments feature high standard for professional use.

**Half or Full Gold Plating  
on Polish Finish**

24 carot hard gold plated instruments have a extra high quality appearance.

**Half or Full Sand Blasted  
on Polish Finish**

These instruments give timeless surface appearance.

**Half or Full Powder Color  
Coated on Polish Finish**

These instruments give uniquely attractive look by using different color combinations.

# Nail & Cuticle Scissors

Made of hot forged special steel, hardened and precisely ground. Bent, thin and extremely sharp cutting edge for careful and easy removal of fine nail and cuticle.

Our nail scissors cut nails without crushing or splitting them.

Our cuticle scissors cut even the finest cuticles with perfect precision.

Brilliant quality, excellent functionality and dependably long-lasting.

All nail and cuticle scissors made by Trimax have been carefully hand honed and individually tested.

# Cuticle Nippers

Strong and precise instrument for clean removal of the cuticle and residual skin even in the corners and round edges of the nail bed.

Various cutting lengths available for different cutting habits.

Apart from leaf springs, scissors handles are also available.

As with cuticle scissors, cuticle nippers also have the specialty of the "honed jaw". Its finely ground, highly polished and sharpened blades allows the cutting of cuticles, which offers a very special comfort in working cuticles.

Available in lap joint / box joint and different sizes of cutting edge.

**2001 - 100**  
Cuticle nipper  
lap joint  
beak size 7mm  
single spring  
size 10cm

**2092 - 100**  
Flat head

# Nail nippers

Instruments for easy shortening and forming strong finger & toe nails.

The different sizes and cutting head forms demonstrate the broad range of manicure or pedicure applications.

There are two different joints available. Lap joint nippers have the nipper shanks lying one on top of the other at the joint. Box joint nippers have one shank put through the other nippers shank.

While one can cut and form the finger nails according to desire and fashion, it is recommended to cut and form toe nails relatively short and straight. Toe nails should not reach over the end of the toes.

# Tweezers

Available for various purposes and are made out of a variety of materials in different designs.

Types of tweezers:

Pointed:  
to remove splinters.

Slanted:  
to shape eyebrows or to remove hair.

Straight:  
to shape eyebrows or to remove hair.

Bent or angular with a straight mouth:  
exerts a particularly high pressure due to its angular shank  
and has a very firm grip.

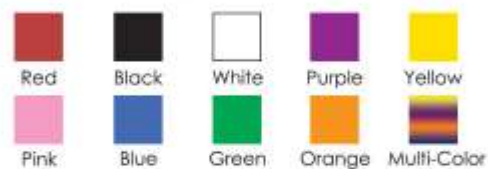

Round:  
safe grip no sharp edges, special tweezers for safe round edge.

All tweezers are carefully produced, particularly on the functional part with the inner sides being ground to grip hair. It is made sure that the shanks of a pair of tweezers are of the same length.

## Available Colors

# Instruments for professional applications

Manicure made easy - with well-functioning instruments  
Manicure, pedicure - perfectly functioning instruments are required for these personal hygiene tasks

Professional application products by TRIMAX are characterized by:

- good raw materials
- excellent workmanship
- high functionality
- durability
- large selection

There is a broad range of TRIMAX manicure instruments available, a large selection made of various raw materials, in various sizes and for the most varied functions. All these instruments are characterized by their outstanding workmanship, making them distinctly durable and highly functional.

# Barber Thinning

For professional hairdressers, or for anyone who wants a professional looking haircut at home, we offer a large selection of haircutting shears, thinning shears, and other hair-care supplies at a fraction of what you would spend at a salon.

All haircutting scissors and accessories are top-of-the-line. We have a wide range of shears, from professional to the economical Starlight Shears.

Our innovative haircutting shears are designed for cutting performance and comfort. The convex blades allow for clean cuts with superb precision. Extremely sharp hollow-ground blades made of Stainless Steel provide guaranteed quality and durability.

Our haircutting scissors are great for gift giving, and they pay for themselves after just a few uses.
